aswathyTalks Logo Animation Brief

Brand intro · ~8 seconds · Square 1:1

Instructions

Animate the attached logo exactly as it is. Do not change, redraw or add anything to the design, text, colors or her face. Keep her hair still.

Sequence (about 8 seconds, smooth and professional)

1. Start on a clean, soft blush-pink background. Only the photo of the woman appears first: she zooms in from the center with a smooth, gentle bounce and a slight turn, settling into place. Nothing else is visible yet.
2. After she settles, the cream circular background with the pink border opens outward from behind her, like a soft circular reveal.
3. Then the small doodle icons pop in one by one around the circle in a clockwise order (heart, laptop, light bulb, leaves, YouTube icon, camera, airplane, coffee cup, hearts), each with a quick, playful scale-up bounce.
4. Next, the name "aswathyTalks" writes on smoothly from left to right, like it is being handwritten, with a slight upward float.
5. Then the tagline "LEARN | CREATE | EXPLORE | GROW" fades up softly, followed by the bottom leaves and small heart popping in.
6. Once the full logo is complete, a soft white light sweeps diagonally across it, then the whole logo does one gentle pulse with a soft pink glow.
7. End on a crisp, centered, still final frame of the complete logo with a subtle soft shadow.

Style

Elegant, modern, clean, premium brand intro. Smooth easing, no shaking, no extra effects, no added text, no camera movement. Square 1:1 format.
